**COMPANY PROFILE**

# COMPANY PROFILES

Keep Improving to produce fine quality elevators

**Sakura Elevator** is a professional manufacturer of high quality elevators. To produce high quality elevators, we abide by the philosophies of, "*Technical Leadership, Excellent Quality, and Service First*". We have expanded our factory gradually to ensure sufficient production capacity. The scale of our new factory is comparable and even exceeds that of major international manufacturers.

Our product line encompasses various typed of elevators, including *Home elevators, Passenger elevators, Observation elevators, Hospital elevators, Car elevators, Parking facilities and more*. All of our products are the culmination of craftsmanship, technology, and aesthetics. The four major departments in our company, the R&D design, Manufacturing, Marketing and Sales, and Accounting departments, all work together to transform enclosed spaces into the safest, most comfortable

vertical transportation products for our clients.

Hence, to uphold international quality as our Standard, such as the Middle East, Saudi Arabia, SASO Certificate, Singapore, the structure identified, And Taiwan, China and many other types of Certification.

Especially we obtained the European CE Certificate in 2009 & UCMP Certificate in 2014 bring SAKURA won the highest international specifications, quality assurance, in 2011 by the Japanese government, Anti-smoke Doors certified for fire counter-measures, also due to the continuous research and innovation, Achieve numerous domestic and foreign patents.

It's not only an honour of our company, but the glory of Asia. Dream lift for home use – **Make you ride comfort & ease to use.**

All our product are international certified, our product have strictly pass the International CE certification, German TUV most efficiency elevator machine with Class A Grade, and pass Japan Safety Structure and Construction Certification, also pass the Singapore Government Special Structure Elevator Design and Safety. We keep Improving and Innovation to reinvention the Elevator Technology.
